WORK EXPERIENCE & PROJECTS

Consultant
Deloitte, Bengaluru May 2026-Oct 2026

- Designed executive-level presentations, proposal decks and client-facing communication materials for global stakeholders, translating complex business concepts, raw data and strategic insights into clear visual stories • Created business proposals, pursuit documents and pitch presentations supporting client acquisition and business development initiatives
- Developed brand-compliant PowerPoint templates, design systems and reusable slide assets that ensured consistency across client deliverables and improved team efficiency
- Designed data-driven visuals, infographics, dashboards, process flows, timelines and executive summaries to communicate key insights
- Redesigned existing presentations to improve visual impact, readability and audience engagement, applying visual hierarchy, whitespace, typography and information design principles
- Used AI tools, including Adobe Firefly, to create custom visuals, illustrations and creative assets aligned with client requirements
- Supported strategic communication and change management initiatives with presentation and visual content built in Microsoft PowerPoint and Adobe Creative Suite
- Collaborated with consulting teams, managers and stakeholders to translate business objectives into visual solutions, managing multiple projects in parallel to tight deadlines while maintaining accuracy and client branding standards.

Visual Analyst
McKinsey & Company, Bengaluru Feb 2024-Apr 2026

- Designed executive-level business presentations and PowerPoint decks for global consulting projects, used in client reviews, workshops and strategy presentations
- Translated complex business data, research insights and quantitative analyses into clear visual narratives supporting senior leadership decision-making
- Built complex charts and structured slides in think-cell with speed and precision, and developed charts, dashboards and data visualization assets in PowerPoint and Excel
- Created and maintained branded templates, slide libraries and design systems aligned with McKinsey brand guidelines and formatting standards
- Strengthened presentation structure, storytelling flow and messaging clarity to improve executive communication with senior stakeholders and clients
- Improved visual consistency, readability and user experience by applying best practices in layout design, typography, color usage and data visualization
- Partnered with consultants and cross-functional teams to deliver accurate, high-quality outputs across multiple concurrent priorities within tight timelines
- Managed shared files, version control and team collaboration on SharePoint
- Received multiple internal awards, including “Sleek Operator” and “Quality Crusader”, for operational excellence and attention to detail

Graduate Engineer Trainee
Halonix, Bengaluru Jan 2022-Jan 2023

- Created client-facing sales presentations, pitch decks and proposal documents for B2B sales conversations • Designed visuals, charts and data-driven slides communicating product features and value to enterprise clients, customized by client requirement, industry and use case
- Collaborated with marketing teams and senior sales leaders to refine presentations for client meetings and product demos
- Developed product brochures and sales collateral to support business development
- Identified potential clients on-site and supported lead generation; met consultants and end users to gather requirements for lighting solutions
- Conducted product training sessions for customers and partners on features, usage and services

PROJECT

Fuzzy-Logic and Evolutionary Optimization Based MPPT Algorithm
Institute of Technical Education and Research, SOA University 2018-2019

- Developed an MPPT (Maximum Power Point Tracking) algorithm using evolutionary optimization and fuzzy-logic techniques
- Simulated solar PV performance under varying irradiance and temperature conditions to maximize energy output
- Implemented image-processing based surveillance component to detect security threats at remote locations
- Designed an alert mechanism to automatically map detected threats to the nearest police station for response

POSITION OF RESPONSIBILITY

Event Co-ordinator- "Paint Your Imagination" (Cultural Event)
Institute of Technical Education and Research, SOA University Aug 2018

- Led planning and coordination of an inter-college cultural art event
- Managed participant registrations, event scheduling, and on-ground execution
- Coordinated with student committees and faculty for smooth event management

ACHIEVEMENTS

- Won multiple district-level art competitions for three consecutive years
- Presented a research paper at the **International Conference on Green Technology for Smart City and Society (GTSCSS), 2020**

CERTIFICATIONS/TRAINING

Training in Digital Marketing
Auroin

- Completed structured training covering SEO, Social Media Marketing, Google Ads, Email Marketing, and Facebook Ads
- Worked on live Google Ads campaigns, performed keyword research, optimized CTR, and improved ad ranking
- Completed assignments involving end-to-end social media campaigns, content creation, keyword research, and responding to user queries across platforms such as Facebook, Twitter, LinkedIn, and Instagram
